FRIDAY

GARDEN & REVIEW

"Where lavender grows, sleep is not far behind." — Vovó

DRAW A LAVENDER PLANT. LABEL THE BUDS, SPIKE, AND LEAVES.

Count the buds you drew:

Lavender seeds sprout in 14 to 28 days. A young start grows faster — both are God's design.

THIS WEEK AT EDEN'S TABLE

God's design is the foundation of everything — our bodies, our senses, our plants, our family.

Say it together three times.

1. Look at your lavender drawing above. Describe the plant in your own words.

2. What did God give us five senses for?

3. Who grew lavender in monastery gardens long ago?

4. Use the word AROMATIC in a sentence about lavender.

*We've met the Eden family, met our
first plant — lavender — and learned
to wonder.*
