

Tulsi

Ocimum tenuiflorum

Ocimum sanctum

Lamiaceae (the mint family)

TULSI

Ocimum tenuiflorum

Properties

- Helps the body adapt to stress.
- Supports the immune system.
- Brings calm clarity.

Preparation

Oxymel — pack jar half-full with fresh tulsi; add ½ cup raw honey + ½ cup ACV; shake daily 8 weeks.

Tea — steep dried tulsi 10 min.

Identify by

- Square stem (the mint-family mark).
- Oval leaves with toothed edges and soft purple veins.
- Crush a leaf — smells like clove + mint + something warm.

Caution

Tulsi may lower blood sugar. Ask a grown-up before use if you take diabetes meds.
